

What is this Service Offering about?

Targeted expert guidance for your most pressing cutover challenges.

Are you in the middle of a project and facing a specific problem with your cutover planning, governance, or hypercare strategy? Do you need targeted advice from an expert to immediately resolve a roadblock, rather than weeks of consulting? Our cutover coaching offers you fast, straightforward, and methodologically sound support—tailored precisely to your current issue.

Typical coaching scenarios:

- **Strategy review:** “Does our go-live strategy align with the new ODS requirements?”
- **Governance crises:** “How do we resolve the current conflict between the PMO and the cutover stream regarding responsibilities?”
- **Methodological input:** “How do we apply the Cutover Governance Matrix (CoGM) to our specific legacy system scenario?”

Target Audience

This coaching is designed for decision-makers in critical project phases who are facing a specific methodological or strategic hurdle:

- **Cutover Managers & Stream Leads**, who need an impartial expert opinion or methodological validation (e.g., regarding CoGM) for an upcoming decision.
- **Overall project managers (PMO) and program managers**, who need to quickly resolve acute governance conflicts or strategic ambiguities in the cutover environment.
- **IT and business leaders**, who are on the verge of go-live and want to minimize a specific risk in their hypercare or fallback strategy.

Value Proposition

- **Immediate solution to bottlenecks:** No lengthy onboarding, no consulting contracts that last for weeks. You receive support exactly when you need it most to ensure project progress.
- **Methodological certainty instead of gut feelings:** The consulting is based on the field-proven GESWO Cutover Governance Matrix (CoGM)—giving you and your stakeholders maximum confidence in your decisions.
- **Minimal effort, maximum focus:** You invest just 90 minutes of your time and receive a customized, immediately actionable solution for your specific problem.

Specific Deliverables

After the coaching session, you won't go home empty-handed. You'll receive a concise package of results:

– 1 – The Deep Dive Session (90 min.) A facilitated, solution-oriented one-on-one online session with a GESWO senior expert.	– 2 – GESWO Executive Summary (PDF) A concise summary of the analyzed root causes and the key points discussed (approx. 1–2 pages).
– 3 – Customized Action Plan A concrete, prioritized set of recommendations (Next Steps) for direct implementation in your project.	– 4 – CoGM Method Shortcut Relevant excerpts or checklists from the Cutover Governance Matrix that are precisely tailored to your specific challenge (for internal use).

The Process: Maximum Output with Minimal Time Investment

The entire process takes only 90 minutes on the client's end:

- **Problem Submission**
You briefly describe your specific problem to us in writing in advance (feel free to include 1–2 relevant slides or documents).
- **Expert Preparation (GESWO)**
We analyze your issue in advance and prepare concrete solutions based on the CoGM methodology.
- **The Deep Dive Session (90 minutes)**
Joint development of the solution during an online meeting.
- **Follow-up & Insights**
Finalization and delivery of your deliverables within 48 hours after the session.

Investment

- **Scope:** Preparation, 90-minute intensive session, documentation, and follow-up (total time required: approximately 1/2 project day).
- **Fixed price:** €500 (net)
